

**Motion voted by House of Commons
November 16, 2005**

“That, in the opinion of the House, the government should give its negotiators a mandate during the negotiations at the World Trade Organization so that, at the end of the current round of negotiations, Canada obtains results that ensure that the supply management sectors are subject to no reduction in over-quota tariffs and no increase in tariff quotas, and also ensure an agreement that strengthens the market access position of Canada’s agricultural exporters so that all sectors can continue to provide producers with a fair and equitable income.”
